

RULES AND REGULATIONS

Wittman Regional Airport Oshkosh/Winnebago County, Wisconsin

*Adopted by the Winnebago County Board of Supervisors
September 21, 2004*

PREFACE

In order to assure the safe and efficient operation of Wittman Regional Airport, the County of Winnebago has adopted the following rules and regulations.

All rules and regulations enacted by the Federal Aviation Administration relative to airpersons, aircraft, and air traffic now in effect, or any amendments adopted in the future, are hereby adopted by reference and made a part of these regulations as fully as if the same and each and all of them as completely set forth herein.

Copies of these rules are distributed to all regular airport users. Copies are available from the Airport office upon request.

I. INTRODUCTION

1.1 APPLICABILITY

The standards set forth herein shall be applicable and strictly observed by, and are incumbent upon all users of, and persons on, any part of the property comprising the Airport. Tenant organizations shall be responsible for the accessibility to and compliance with these standards by all guests or employees.

These rules and regulations are not intended to amend, modify or supersede the Minimum Standards of Wittman Regional Airport, any provision of Federal, State or local law, or any specific contractual agreement with the County of Winnebago, Wisconsin, with which they may conflict, provided, however, that these regulations shall, insofar as possible, be interpreted so that no such conflict shall exist. These regulations may, from time to time, be amended, changed, or modified by action of the Winnebago County Board of Supervisors. Fourteen days advance notice of proposed changes shall be given to any party who so requests notice.

1.2 DEFINITIONS

The words and phrases used in these regulations shall, for the purpose of the same, be construed as set forth below unless the context requires otherwise.

- (1) Words imparting the singular include the plural.
- (2) Words imparting the masculine gender include the feminine.

- (3) "Shall" is always mandatory, not permissive.
- (4) "May" is always permissive.
- (5) "Include" means "include, but is not limited to."
- (6) "Aeronautical activity" (or "Aeronautical Activities" or "Activity" or "Activities") means any activity or service that involves, makes possible, facilitates, is related to, assists in, or is required for the operation of Aircraft, or another Aeronautical Activity, or which contributes to or is required for the safety of such operations. Aeronautical Activities include, but are not limited to, sale of Aircraft Fuel and/or lubricants; passenger, crew, and Aircraft good services; support and amenities; Tiedown, Aircraft Storage/hangar, Aircraft parking, office, and shop rental/subleasing; Airframe and Power Plant Maintenance; Avionics Sales and Maintenance; Aircraft Rental; Flight Training; Air Charter, Taxi; Aircraft Management Operations; Aircraft Sales; sightseeing aerial photography; aerial spraying and agriculture aviation services; aerial advertising; aerial surveying; and any other Activities, which in the judgement of the County, because of their direct relationship to the operation of the Aircraft or the Airport, can appropriately be regarded as an "Aeronautical Activity."

Air Operations Area: Any area of the Airport used or intended to be used for landing, taking off or surface maneuvering of aircraft.

Aircraft: Means any contrivance now known or hereafter invented which is used or designed for navigation of or flight in air, except a parachute or other contrivance designed for such navigation but used primarily for safety equipment. This includes, but is not limited to, airplanes, airships, balloons, dirigibles, rockets, helicopters, gliders, gyrocopters, ground-effect machines, sailplanes, amphibians, ultra lights and seaplanes.

Aircraft Engine: An engine that is used or intended to be used in propelling aircraft, including appurtenances and accessories (except propeller) necessary for its functioning.

Airport: Any land used or intended to be used for aeronautical purposes, air navigational facilities, or related uses, including buildings located thereon, right, title or interest therein, whether now in existence or hereafter acquired and under control of the County of Winnebago, Wisconsin.

Airport Management: Any person appointed by Winnebago County, Wisconsin to have immediate supervision of the administration and operation of the Airport.

Commercial Operation: Means any activity (including Aeronautical Activities) conducted at or on the Airport by any Entity in which:

- a. the exchange, trading, buying, or selling of commodities, goods, services or property of any kind at the Airport; or
- b. engaging in any activity (including Aeronautical Activities) on the Airport for the purpose of securing revenue, earnings, income, and/or

- compensation, whether or not such revenue, earnings, and/or compensation are ultimately exchanged, obtained, or transferred; or
- c. the offering or exchange of a product, service, or facility on the Airport as part of other revenue, earnings, income, and/or compensation producing activity on or off the Airport.

Fireproof: The capability of materials and parts used to confine fire in a designated fire zone to withstand heat at least as well as steel, in dimensions appropriate for the purpose for which they are used, under the most severe conditions of fire and duration likely to occur in that zone.

Flammable: The susceptibility of a material, fluid, or gas to ignite readily or to explode.

Movement Area: The runways, taxiways and other areas of an airport which are utilized for taxiing, take-off and landing of an aircraft, exclusive of loading ramps and parking areas.

Operate: With respect to aircraft, shall mean use, cause to use, or authorize to use aircraft for the purpose of air navigation, including the piloting of aircraft, with or without the right of legal control (as owner, lessee, or otherwise).

Person: Shall mean any individual, firm, partnership, cooperation, company, association, jointstock association, or governmental entity, and shall include any agent, trustee, receiver, assignee, or similar representative of any of the above.

Permission or Permit: Shall mean permission granted by Airport Management, unless otherwise herein specifically provided. Permission or permit, whenever required by these regulations shall always mean written permission, except that verbal permission in specific circumstances where the obtaining of written permission would not be practicable.

Ultralight Vehicle: A lightweight flying machine as defined in FAR Part 103. This vehicle is not considered to be a general aviation aircraft as defined here; however, operation of an ultralight is considered an aeronautical activity.

II. GENERAL STANDARDS

2.1 ADVERTISING

No person, who is not a tenant at the Airport, shall post, distribute, or display signs, advertisements, circulars, printed or written matter at the Airport except with the approval of and in such manner as may be prescribed by Airport Management. All signs located on airport property are required to have written approval of airport management.

2.2 AIRPORT SECURITY

Winnebago County Sheriff's Department deputies have the authority to enforce all applicable laws at Wittman Airport. City ordinances within the city limits of Oshkosh are enforced by the Oshkosh Police Department.

2.3 ASSUMPTION OF RISK BY USERS

The privilege of using the Airport and its facilities shall be conditioned on the assumption of responsibility of risk by the users thereof. The County shall not accept responsibility for the negligence of tenants, subcontractors, visitors, or other users.

2.4 CONDUCT OF BUSINESS

No person shall utilize the Airport as a base or point of operation for the purposes of engaging in commercial operations of any nature without securing an

appropriate agreement for such activities from the County of Winnebago and paying the rates and charges prescribed for such use. A person not authorized, or one in default under a tenancy agreement, shall not serve or otherwise accommodate the public or carry on any commercial activities on the Airport.

2.5 **NON-DISCRIMINATION**

All Commercial Operators using the Airport shall furnish their services on a fair, equal and non-discriminatory basis: Commercial Operators will not, on the grounds or religion, race, color or national origin, sex, age, height, weight, marital status, or handicap discriminate or permit discrimination against any person, or groups of persons in a manner prohibited by Title VI of the Civil Rights Act of 1964; or by Part 15 of the Federal Aviation Regulations. Airport Management shall have the right to take such action as the Federal Government may direct to enforce this obligation.

2.6 **DEATH OR INJURY**

Any serious injury or death occurring on the Airport, the reporting of which is not otherwise provided for in these regulations, shall be reported to the Airport Management or Winnebago County Sheriff's Department as soon as practicable.

III. AIRCRAFT OPERATIONS

3.1 AUTHORITY TO RESTRICT OPERATIONS

Airport Management shall have the authority to close the Airport or any portion thereof to air operations, except for emergency landings, whenever such action is necessary to avoid endangering persons or property. Airport Management shall have the right to deny the use of the Airport or any portion thereof to any specific aircraft or to any specific class of aircraft, if in its opinion such use would likely endanger persons or property or violate State, Federal, or local laws and ordinances, or when so instructed by the Federal Aviation Administration.

3.2 CONFINEMENT OF OPERATIONS

No person may operate an aircraft on the Airport except on an approved runway without Airport Management concurrence. No person may use a taxiway on the Airport for a take-off or landing without Airport Management concurrence.

3.3 COMPLIANCE WITH REGULATIONS

No person shall operate any aircraft on the Airport other than in conformity with current Federal Aviation Administration, or other Federal, State or Local rules, regulations, ordinances, statues or laws. The current provisions of Federal Air Regulation Part 91, as may be amended, shall govern the movement of air traffic on and in the vicinity of the Airport.

3.4 **AIRCRAFT OPERATION**

No aircraft shall be operated on the Airport in a careless or negligent manner or in disregard of the rights and safety of others, or without due caution, or at a speed or in a manner which endangers persons or property unreasonably, or while the pilot, or any other persons aboard controlling any part of the operation thereof, is under the influence of intoxicating liquor, or any narcotic or habit-forming drug.

3.5 **TAXIING AIRCRAFT**

All aircraft being taxied, towed or otherwise moved shall be under full control and shall move or be moved at a reasonable speed. During any aircraft movement on the public landing area, the terminal apron, the general aviation area or taxiways there shall be a competent person attending the controls. Aircraft shall not be taxied in or out of hangars. Aircraft not equipped with adequate brakes may not be taxied within 50 feet of buildings, parked aircraft, or equipment, unless an attendant is at a wing of the aircraft to assist the pilot.

3.6 **STARTING AIRCRAFT ENGINES**

No person may start or run an engine of an aircraft on the Airport unless there is a competent person at the engine controls, and unless blocks have been placed in front of the wheels, the aircraft has adequate brakes, or other adequate securing procedure is employed. No person shall run an aircraft engine of an aircraft parked on the Airport in a manner that endangers any persons or property or that

blows debris across taxiways or runways, into hangars, buildings, or aircraft, or otherwise endangers the safety of operation on the Airport.

3.7 **AIRCRAFT PARKING**

No person may park an aircraft in an area other than that prescribed by Airport Management. Except in emergency, no person may enplane or deplane passengers in an area that has not been designated for that purpose.

3.8 **WEIGHT LIMITATION**

No aircraft on a single gear having an actual gross weight of over 75,000 pounds, dual gear having a gross weight of over 125,000 pounds, or dual tandem gear having a gross weight over 130,000 pounds, including passengers, cargo, fuel, equipment, etc., shall land, take off or taxi at Wittman Airport without prior approval of Airport Management.

3.9 **AIRCRAFT TIEDOWN**

It shall be the responsibility of the aircraft owner or operator to ensure the adequacy of tie-down ropes and methods provided by and conducted by the operator used in securing aircraft parked on the Airport.

3.10 **DERELICT AIRCRAFT**

Any aircraft parked on public aircraft apron for a period in excess of sixty (60) days and not flown during that period of time shall be declared a derelict unless

arrangements for extended parking have been made by the owner with Airport Management. Upon demand made by the Airport Director to the owner or operator of any abandoned or disabled or derelict aircraft or parts thereof, wrongfully, improperly or otherwise left upon Airport property, it shall be the duty of said owner or operator to remove the same at his/her own expense. If within 30 days after such demand, said owner or operator fails or refuses to remove such aircraft, the Airport Director shall cause the same to be impounded and stored. The cost of such removal and storage shall be a charge against the owner or operator.

3.11 **LIABILITY FOR DAMAGES**

The cost for repair of damage to lighting or other Airport facilities shall be borne by the operator, pilot or persons causing the damage.

3.12 **INTERFERING OR TAMPERING WITH AIRCRAFT**

No person may interfere with any aircraft or put in motion the engine of such aircraft, or use any aircraft, aircraft parts, instruments or tools, without permission of the owner.

3.13 **AIRCRAFT FUELING**

No person may deliver fuel to any aircraft unless he uses approved fueling facilities or is properly trained to engage in such activity in accordance with

Federal Air Regulations and Advisory Circulars. Airport Management reserves the right to establish and maintain reasonable training standards.

IV. MOTOR VEHICLE STANDARDS

4.1 GENERAL

The laws of the State of Wisconsin and the County of Winnebago relating to the operation of motor vehicles on streets and public highways shall apply, where applicable, to the operation of motor vehicles on the Airport. No person may operate any motor vehicle on unleased Airport areas unless he holds a valid operator's license. Exceptions may be approved by Airport Management.

4.2 AUTHORIZED VEHICLES

Only those vehicles authorized by Airport Management such as County Airport vehicles, commercial tenant vehicles, or emergency vehicles shall be permitted to operate within the air operations area. Vehicles shall be readily identifiable, have two-way radio communications with the Air Traffic Control Tower on 121.9 mhz and a yellow rotating beacon.

4.3 SPECIAL AIRFIELD OPERATING RULES

Only cars, trucks, and equipment of Winnebago County, the Commercial Aeronautical Operators, the Federal Aviation Administration, and persons designated by Airport Management will be allowed to drive on the movement areas of the airport including runways and taxiways. Vehicles operating on any aircraft movement area shall give way to taxiing aircraft, stop and wait for such aircraft to pass or park before proceeding unless otherwise directed by Air Traffic

Control personnel. When parking adjacent to a runway, all vehicles must park parallel to the runway and at least 100 feet to the outboard of the runway lights, unless such runway is officially closed or maintenance requirements dictate otherwise.

4.4 **RULES OF OPERATION**

The following general standards shall apply in addition to Federal Aviation Administration Regulations regarding the use and configuration of vehicles on an aircraft movement area:

- No person shall operate a motor vehicle of any kind on the Airport in a careless, reckless or negligent manner in excess of 15 mph on ramps, or 25 mph. The movement of motor vehicles shall be limited to hard surface areas except when authorized by Airport Management.
- Aircraft shall at all times have the right-of-way over vehicular traffic. All vehicles shall pass to the rear of taxiing aircraft.

4.5 **EMERGENCY VEHICLE RIGHT-OF-WAY**

Upon the approach of a police, ambulance, fire-rescue or other emergency vehicle giving an audible or visual signal that it is on an emergency call, persons operating another vehicle shall stop clear of all intersections until the emergency vehicle has stopped or passed.

4.6 **PARKING**

No automobile, truck or other vehicle shall park in any area other than the prescribed parking areas. The laws of Winnebago County governing illegal parking shall be applicable. The following rules shall govern parking of vehicles on the Airport:

- No person may double park on any road.
- No person may park in a pedestrian crosswalk.
- No person may park a motor vehicle within 15 feet of a fire hydrant.
- No person may park a motor vehicle at any place in violation of any official restricting or prohibiting sign posted by Airport Management.
- Except with respect to leased premises, fuel trucks shall be parked a minimum of 25 feet from any taxiway, 200 feet from any runway and 50 feet from an building.
- Operators of ground vehicles specifically authorized to carry passengers for hire shall load only at the location designated by Airport Management.
- Tenants occupying individual hangars (T-hangars) are prohibited from parking ground vehicles more than 15 feet from said building but are permitted to park their vehicles within occupied T-hangars while aircraft is being flown by the tenant.
- The Airport Director may remove from any area of the Airport, any vehicle which is disabled, abandoned, parked in violation, or which represents an operation problem to any area of the Airport, at the owner's expense and

without liability for accidental damage which may result in the course of such action.

4.7 **ACCIDENT REPORTING**

Any accident involving a motor vehicle and aircraft, however slight the damage, or any other motor vehicle accident on the Airport that results in personal injury, or in property damages of more than \$100.00, shall be reported by the Operators of the vehicle or aircraft to Airport Management as soon as possible after the accident.

4.8 **VIOLATIONS**

Airport Management may cause to be towed away or otherwise move any motor vehicle on the Airport that is operated or parked in violation of these regulations. The Winnebago County Sheriff's Department may be called to enforce these standards. Any person found to be in violation of vehicular traffic or parking regulations as specified herein may be denied permission by the Airport Director to operate a vehicle upon the Airport premises.

4.9 **MOTORCYCLES AND BICYCLES**

Every person riding a motorcycle or bicycle upon an Airport roadway shall be granted all rights and shall be subject to all duties made applicable to the driver of a vehicle, except as to standards which by their nature can have no application.

Such cycles are strictly prohibited from operating or parking on the air operations area.

V. SAFETY

GENERAL FIRE SAFETY

5.1 **EXERCISE OF UTMOST CARE REQUIRED**

All persons using the airport shall exercise the utmost care to guard against fire or injury to persons or property.

5.2 **SMOKING RESTRICTED**

All persons shall comply with all applicable laws and regulations, insurance requirements and with "NO SMOKING", "FIRE LANE", and other regulations and signs posted by Airport Management.

5.3 No person shall smoke on the Airport apron, ramp or fuel storage.

Pursuant to the Winnebago County Ordinance Chapter 9.14 Smoking in County Buildings (3) Smoking Prohibited: No person shall smoke in any County-owned or County-leased building, office, or vehicle at any time.

5.4 No person shall conduct any open flame operations in any hangar or anywhere else on the Airport unless specifically authorized by the Airport Director.

5.5 All tenants or lessees shall provide and maintain adequate and readily accessible fire extinguishers as approved by fire underwriters for the particular hazard

involved. No person shall tamper with or use the fire extinguishers other than for fire fighting or fire prevention.

5.6 **CLEANING FLOORS**

Floors shall be kept clean and free from oil. The use of volatile or flammable solvents for cleaning floors is prohibited. Drip pans shall be placed under engines when necessary to prevent accumulation of oil.

5.7 **STORAGE OF OIL WASTE, RAGS & RUBBISH**

Suitable metal receptacles with self-closing covers shall be provided by tenants for the storage of oily waste, rags and other rubbish. The contents of these receptacles shall be removed as often as necessary to prevent overloading. Removal of waste oil rags and rubbish shall be the responsibility of the tenant.

5.8 **REMOVAL OF EMPTY CONTAINERS**

All empty oil, paint and varnish cans, bottles, or other containers shall be immediately removed from all buildings and not allowed to accumulate.

5.9 **CLOTHES LOCKERS - CONSTRUCTION & LOCATION**

All clothes lockers shall be constructed of metal or other suitable fire-resistive material. No clothes lockers shall be permitted in that portion of the hangar used for the storage of airplanes. Storage of boxes, crates, rubbish, paper or litter of any kind shall not be permitted in or about hangars.

5.10 **FLAMMABLE LIQUIDS - STORAGE**

Storage of gasoline, kerosene, ethyl, ether, or other flammable liquids, including those used in connection with the process of "doping" shall be in compliance with the regulations of the National Fire Protection Association (NFPA) for the construction and installation of containers for flammable liquids. Lubricating oils may be kept within hangars when stored in containers and provided with drawoff devices.

5.11 **COMPRESSED GAS CYLINDERS - STORAGE ROOMS**

Cylinders or flasks of compressed gases shall be stored in accordance to NFPA standards.

5.12 **FIRE EXTINGUISHERS - RESPONSIBILITY FOR FURNISHING & MAINTENANCE**

The operator of any hangar or building on the Airport shall be responsible for the furnishing and maintaining of adequate first aid and fire appliances.

5.13 **FIRE DOORS AND FIRE PREVENTION APPARATUS - ACCESSIBLE AND UNOBSTRUCTED**

All fire doors and other fire prevention apparatus shall be accessible and kept unobstructed at all times.

AIRCRAFT FIRE SAFETY

5.14 FUELING AIRCRAFT

Only operators identified in the Minimum Standards may sell fuel on Wittman Regional Airport.

No airplane shall be fueled or drained of fuel while the engine is running, or while in a hangar or other enclosed space. Pre-flight fuel samples are allowed in such areas.

Fueling equipment shall be such as to afford a continuous metallic contact between the discharge nozzle, metal lining, or other metal conductors of fueling hose, main fuel tank or fuel line, and the ground, and the discharge nozzle shall have securely attached thereto an adequate bonding cable terminating in a suitable metal clip.

No person may start the engine of an aircraft on the Airport if there is any gasoline or other volatile flammable liquid on the ground beneath it.

No person may operate a radio transmitter or receiver, or switch electrical appliances on or off, in an aircraft on the Airport, while it is being fueled or defueled. Each person engaged in fueling or defueling, on the Airport, shall

exercise care to prevent the overflow of fuel, and must have proper and adequate fire extinguisher capacity readily accessible at all times.

During the fueling or defueling of an aircraft on the Airport, no person may, within 50 feet of that aircraft, smoke or use any material that is likely to cause a spark or be a source of ignition.

Each hose, funnel or appurtenance used in fueling or defueling an aircraft on the Airport must be maintained in a safe, sound and non-leaking condition.

Fueling operations shall conform to NFPA Standard 407 unless otherwise authorized by Airport Management.

No company or individual will be allowed to transport flammable liquids into any aircraft area or to refuel aircraft on any portion of the property owned by the County prior to securing authorization from Airport Management.

Prior to fuel servicing of any aircraft, it and the fuel dispensing equipment shall be grounded to a point or points of zero electrical potential to prevent the possibility of static ignition of volatile liquids

During refueling or defueling, fuel handling vehicles shall be so placed as to be readily removable in the event of a fire. No more than one refueler shall be positioned to refuel each wing of an aircraft.

Each fuel handling vehicle shall be conspicuously marked in letters of contrasting colors, with the word "flammable" on both sides and the rear of the cargo tank, and with the wording "emergency shut off" and of the appropriate operating instructions required at the emergency operating devices. Each fuel-handling device will also be conspicuously marked on both sides and the rear with the type and grade of fuel it contains.

Oxygen system servicing is not permitted during aircraft fueling operations or while other work is performed that could provide a source of ignition.

5.15 **CLEANING AIRCRAFT PARTS – FLAMMABLE LIQUIDS**

The cleaning of engines or other parts of the airplane shall preferably be with nonflammable liquids. If volatile flammable liquids are employed for this purpose, cleaning operations shall be carried on in the open air or in a separate room located in the repair shop section and separated therefrom by fire resistive partitions. These procedures shall conform to OSHA, EPA, and Oshkosh Fire Department standards.

5.16 **FUEL TRUCKS - APPROACHING AIRCRAFT TO BE SERVICED**

Fuel trucks shall not approach within one hundred (100) feet of any aircraft to be serviced until aircraft engines are shut off and propellers motionless and the pilot or authorized representative has approved the servicing of the plane.

GENERAL SAFETY

5.17 **REMOVAL OF GARBAGE, RUBBISH & TRASH**

The operator of any hangar or occupant of any space in the Airport buildings shall be responsible for the prompt and proper disposal or removal of any trash, rubbish, garbage, or debris from the leased Airport premises. All trash shall be stored in covered containers.

5.18 **COMMERCIAL TRASH DISPOSAL UNITS**

No commercial trash disposal containers shall be placed closer than 10 feet from a combustible wall or 50 feet from a building ventilation in-take system.

5.19 **FUEL FARM SAFETY**

Fuel farm safety and security is the responsibility of the tenant user. No person shall have access to fuel farm equipment unless he is trained by the tenant in safe and proper fuel farm procedures.

HAZARDOUS MATERIALS STORAGE

5.20 Gasoline, oil and solvent drums or receptacles shall not be stored on apron and ramp areas in excess of amounts actually needed as current stock; any material of this type that is kept in subject areas will be kept enclosed and covered in a clearly marked and labeled housing of a design and type that meets the approval of the Airport Management.

No fuels, oils, dopes, paints, solvents, or acids shall be disposed of or dumped in drains on the ramp areas, catch basins or elsewhere on the Airport.

Each operator handling, using, or storing fuels, oils, solvents, chemicals and/or hazardous materials at the Airport shall provide a written report to the Airport Director, updated annually, identifying all hazardous materials used or stored at the Airport and describing the measures taken by the operator to comply with all applicable Federal, State, and local laws and other regulatory measures. All operators shall be subject to inspection by or on behalf of the Airport for compliance at any time during normal business hours.

VI. PUBLIC AND TENANT USE

6.1 ROADS AND WALKS

No person shall travel on the Airport other than on the roads, walks or places appropriate for the manner of travel being performed, or occupy the roads and walks in such a manner as to hinder or obstruct their proper use.

6.2 PRESERVATION OF PROPERTY

No person shall destroy, injure, deface, modify or disturb in any way any buildings, sign, equipment, marker, or other structures, tree, flower, lawn or other property on the Airport; nor alter, make additions to, or erect, any building or sign or make any excavations on the Airport without the authorization of Airport Management. No person shall willfully abandon any personal property on the Airport.

6.3 DANGEROUS OBJECTS

No person, except for a peace officer, may carry any weapon or explosive on or about his person openly or concealed on the Airport.

6.4 RESTRICTED AREAS

No person shall enter an air operations area, utilities and service rooms or areas, or other areas designated as restricted, except:

1. A properly identified person assigned to duty therein;

2. An authorized representative of the Federal Aviation Administration; or the Transportation Security Administration.
3. A passenger, who, under appropriate supervision, is entering the apron to enplane or deplane.
4. Any other person authorized by Airport Management, or by a tenant limited solely to the area he occupies.

6.5 **ANIMALS**

With the exception of seeing eye dogs, animals are not permitted in the landing areas, aprons or aircraft parking areas, except for shipment by air. Animals may be permitted in other areas of the Airport if restrained by leash or confined in such a manner as to be under control.

No person may fish, hunt, trap or kill any animal on the airport, except with specific authorization.

6.6 **LIMITATION ON NON-TRAVELING ASSEMBLIES**

The assembly of persons generated by political figures, entertainers, sports teams and the like shall be at such locations and may be limited to such numbers as may be directed by Airport Management to ensure public safety or to allow proper airport operation. Members of such an assemblage shall in no way interfere with the peaceful transit of the traveling public.

6.7 **COUNTY OWNED HANGARS/TIE-DOWN SPACE**

These hangar/tie-down spaces are intended to be used for the storage and legal maintenance of Lessee's aircraft only, by Lessee and/or his employee. Exceptions can be granted by the Airport Director. Electric circuits of T-hangars are limited in capacity and shall not be overloaded by tenants.

6.8 **USE OF SHOP AREA**

All shops, garages, equipment and facilities are expressly for the conduct of the owner's or lessee's business and operations. No person other than employees of the owner or lessee or customers, shall be present on said premises without individual and specific permission of the owner or lessee.

VII. ENVIRONMENT

7.1 SANITARY SEWERS

Disposal of high grease content or fibrous materials or bulky solids or grit into the sanitary sewer (septic tank and laterals) system is prohibited. Grease traps shall be regularly cleaned, as necessary.

7.2 SHOP FLOOR DRAINS

All shop installations where any engine, mechanical equipment or vehicle is maintained, cleaned or painted, shall be equipped with properly maintained traps to collect grease and grit. Such grease and grit shall be disposed of properly by the tenant.

7.3 WASTE PETROLEUM

Approved receptacles shall be maintained to collect waste petroleum products for disposal by salvage or other approved method.

7.4 DETERGENTS

All tenants who use detergents in their operations, particularly equipment for vehicle washing and kitchens, are required to utilize only those detergents which are neutral and biodegradable.

7.5 **OPEN FIRES**

Open fires on the Airport are prohibited.

7.6 **REMOVAL OF FUEL, OIL AND GREASE**

In the event of spillage or dripping of fuel, oil, grease or any material, which may be detrimental to the pavement or may flow to the storm drain system, the same shall be removed immediately. The responsibility for immediate removal of such fuel, oil, grease, or other material shall be assumed by the operator of equipment causing the same or by the tenant or concessionaire responsible for the deposit thereof on the pavement.

7.7 **SANITATION**

No person shall place, discharge or deposit sewage, garbage, refuse, paper or other material except in the proper receptacles and in a proper manner. All commercial trash containers will be covered. Trash pickup frequency shall be sufficient so that no trash is placed outside said covered containers.

VIII. SECURITY

- 8.1 Each tenant, user, operator and person shall observe all Federal, State and County security requirements, and shall take such steps as necessary or directed by the County to ensure that officers, employees, representatives, invitees and guests of each entity observe such requirements.

- 8.2 The County reserves the right to suspend or revoke Airport privileges on a temporary or permanent basis, of any person failing to abide by these Rules and Regulations.

IX. PENALTIES

Any person who violates any standard, directive, instruction, or official sign duly issued, promulgated or posted pursuant to and under and by virtue of the power and authority of the County of Winnebago shall be subject to the following:

- Citation and fine pursuant to Sec. 21.06, General Code of Winnebago County.
- Traffic violators shall be subject to Winnebago County traffic violation citations;
- Serious, flagrant, or repeated violations shall be subject to denial of the use of Airport facilities or terminations of tenancy.
